

History Project

Within the framework of the Extended ESA History Project, four short histories of Member State space programmes were published, with the help of ESA Publications Division. They document the historical development of space policy in those ESA Member States, as well as describing the milestones and turning points in that history:

- 'Canada and the European Space Agency - Three Decades of Cooperation'
Lydia Dotto
ESA HSR-25, published in May 2002
- 'Spain in Space'
J.M. Dorado et al.
ESA HSR-26, published in August 2002
- 'An Overview of Space Activities in The Netherlands'
Joost van Kasteren
ESA HSR-27, published in November 2002
- 'The "Triple Helix" of Space - German Space Activities in a European Perspective'
Helmuth Trischler
ESA HSR-28, published in December 2002
