

... the European Real-Time Operations Simulator

- hard-real-time simulations
- non-real-time and faster-than-real-time simulations
- knowledge management for complex systems
- multi-disciplinary project teams
- multi-user simulation solutions
- transfer of knowledge throughout the full project life-cycle

Availability

EuroSim is available as a licensed product, leased, or as part of a turn-key simulation solution supported by the EuroSim consortium.

Add-on products are available for automatic integration of models from MATLAB®/Simulink® and MATRIXx™

EuroSim Consortium

EuroSim is developed and supported by

Dutch Space

Atos Origin
