

Proceedings of

Third CHRIS/Proba Workshop

21 – 23 March
ESRIN, Frascati, Italy

***European Space Agency
Agence spatiale européenne***

ORGANISING COMMITTEE

B. Hoersch, ESRIN, Italy
R. Bianchi, ESRIN, Italy
M. Davidson ESTEC, The Netherlands
E. Attema ESTEC, The Netherlands
G. Pitella, ESRIN, Italy
C. Comparetto, ESRIN, Italy

<i>Publication:</i>	Proceedings of the Third CHRIS/Proba Workshop, 21–23 March 2005, ESRIN, Frascati, Italy (ESA SP-593, June 2005)
<i>Editor:</i>	H. Lacoste
<i>Published and distributed by:</i>	ESTEC Postbus 299 2200 AG Noordwijk The Netherlands The Netherlands
<i>Printed in:</i>	The Netherlands
<i>Price:</i>	30 Euros
<i>ISBN No:</i>	92-9092-904-9
<i>ISSN No:</i>	1609-042X
<i>Copyright:</i>	© 2005 European Space Agency

Contents

Session 1: CHRIS Geometric and Atmospheric Correction

Chairman: Mike Cutter

CHRIS Data Products - Latest Issue

M. Cutter & L. Johns

Advances and Limitations in a Parametric Geometric Correction of CHRIS/Proba Data

L. Alonso & J. Moreno

Quality and Information Content of CHRIS Hyper-Spectral Data

B. Aiazzi, S. Baronti, P. Marcoionni et al.

Methods for the Surface Reflectance Retrieval from CHRIS/Proba Data over Land and Inland Waters

L. Guanter, L. Alonso & J. Moreno

CHRIS Performance Evaluation: Signal-To-Noise Ratio, Instrument Efficiency and Data Quality from Acquisitions over San Rossore (Italy) Test Site

A. Barducci, D. Guzzi, P. Marcoionni & I. Pippi

Atmospheric Effects Correction of CHRIS Data Acquired over San Rossore for their Assimilation in Biochemical Models

A. Barducci, D. Guzzi, P. Marcoionni & I. Pippi

Geometric and Radiometric Pre-Processing of CHRIS/Proba Data over Mountainous Terrain

M. Kneubühler, B. Koetz, R. Richter et al.

Cloud Masking Scheme Based on Spectral, Morphological and Physical Features

L. Gómez-Chova, J. Calpe, G. Camps-Valls et al.

Exploitation of Proba CHRIS/HRC Data in the Context of the International Charter Space & Major Disasters

F. Sarti, H. Yesou, R. Andreoli & S. Clandillon

Session 2: Land Processes & Forests I

Chairman: Mike Barnsley

Estimation of Vegetation Photochemical Processes: An Application of the Photochemical Reflectance Index at the San Rossore Test Site

S. Raddi, S. Cortes, I. Pippi & F. Magnani

Analyses of Hyperspectral and Directional Data for Agricultural Monitoring Using a Canopy Reflectance Model SLC Progress in the Upper Rhine Valley and Baasdorf Test-Sites

H. Bach, S. Begiebing, D. Waldmann & B. Rowotzki

Assessment of LAI Retrieval Accuracy by Inverting a RT Model and a Simple Empirical Model With Multiangular and Hyperspectral CHRIS/Proba Data from SPARC

F. Vuolo, L. Dini & G. D'Urso

Assessment of Hyperspectral and SAR Remote Sensing for Solid Waste Landfill Management

G. Ottavianelli, S. Hobbs, R. Smith & D. Bruno

Session 3: Land Processes & Forests II

Chairman: J. Moreno

Estimation of Forest Biophysical Characteristics Through Coupled Atmosphere-Reflectance Model Inversion Using Hyperspectral Multi-Directional Remote Sensing Data. A Contribution to Future Forest Inventory Strategies

M. Schlerf & J. Hill

Proba CHRIS Contribution to the BACCHUS Precision Farming Investigation

F. Del Frate, L. Fusco & M. Severini

Development and Implementation of Remote Sensing Techniques for Long-Term Monitoring of Biological Soil Crusts (BSCs) – Utilization of CHRIS Proba Data for Upscaling and Classification

B. Weber, K. Deutschewitz, C. Schultz et al.

KOMPSAT & CHRIS/Proba Joint Experiments for Further Applications

K. Lee, Y. Kim & B. Hoersch

Forest Test Site at Järvelja, Estonia

A. Kuusk, M. Lang & T. Nilson

Fractional Vegetation Cover Estimation from Proba/CHRIS Data: Methods, Analysis of Angular Effects and Application to the Land Surface Emissivity Retrieval

J.C. Jiménez-Muñoz, J.A. Sobrino, L. Guanter et al.

Archaeological Sites Studies Based on Neural Computation Techniques

M.C. Cantero, P. Martínez, R.M. Pérez et al

Pre-Evaluation of Wild Fires in Monfragüe Regional Park Using CHRIS Imagery

D. Valencia, P. Martínez, J. Plaza et al.

CTCD CHRIS-Proba Activities

P. Lewis

Session 4: Inland and Coastal Waters

Chairman: S. Lavender

High Spatial Resolution Remote Sensing of the Plymouth Coastal Waters

S. Lavender, D. Doxaran & R.C. Nagur Cherukura

Total Suspended Matter Maps from CHRIS Imagery of a Small Inland Water Body in Oostende (Belgium)

B. van Mol & K. Ruddick

Comparative Mapping of Aerial and Satellite Scale Resolutions for Marine Near-Shore Bathymetry

R. Merton, W. Yip Lau & S. Mitchell

Use of CHRIS for Monitoring Water Quality in Rosarito Reservoir

A. Ruiz-Verdú, J.-A. Domínguez-Gómez & R. Pena-Martinez

Mapping Water Constituents in Lake Constance Using CHRIS/Proba

S. Miksa, T. Heege, V. Kisselev & P. Gege

Remote Sensing Modeling and Monitoring of Water Quality within the Seville (Spain) Area
Dams

A. Polvorinos, M. Forteza, M.J. Hernández et al.

Session 5: Session Conclusions and Discussion & 2005 Data Acquisition Plan

Chairman: B. Hoersch

Session Summaries

Session 1: CHRIS Geometric and Atmospheric Correction

Chairman: M.A. Cutter

Session 3: Land Processes & Forests II

Chairman: J. Moreno
