

Proceeding of the

DASIA 2007

– DAta Systems In Aerospace –

Conference

29 May – 1 June 2007
Naples, Italy

organised by

In coordination with

CSA – CNES – ESA
Eumetsat – Eurocontrol

European Space Agency
Agence spatiale européenne

Committees

F. Hass, Dansenior, Chairman
P. Armbruster, ESA/ESTEC
C. Brunet, Canadian Space Agency
M. Fauveau, CNES
K. Hjortnaes, ESA/ESTEC
S. Mancini, Eurocontrol
G. Moury, CNES
B. Mullet, Eumetsat
H. Pasquier, CNES
P. Plancke, ESA/ESTEC
W. Busch, Astrium Space Transportation GmbH
A. Christen, Astrium Satellites GmbH
J.F. Coldefy, Astrium Satellites
P. Davies, Surrey Satellite Technology Ltd.
C. Dionisio, Intecs
G. Estaves, Thales Alenia Space
R. Gerlich, BSSE System and Software Engineering
C. Guilly, Eurospace
H.V. Heyer, Kayser-Threde
C. Jørgensen, Terma A/S
P. Lacan, Astrium Space Transportation
C. Lemerrier, Astrium Satellites
G. Macchia, Space Software Italia
A. Martelli, Thales Alenia Space Italia
G. Montalto, European Satellite Navigation Industries
J.C. Nodet, Thales Alenia Space
R. Plet, Eurospace
M. Richard-Foy, Aonix
A. Rossignol, Astrium Satellites
M. Symonds, LogicaCMG
R. Szczepaniak, Cortim
R. Ward, SciSys Ltd.

CONTENTS

Foreword

F. Hass

Chairman's Speech

In a Space Context: Make the Curiosity Pay Off! - or - Who Benefits the Most?

F. Hass

Opening Session

Invited Presentation

The Future Challenges of the Scientific and Planetary Missions: The Italian Contribution to the Exploration

I. Barraco

Session 1A: On-Board Communication & Buses

Chair: G. Moury

Contributed Papers

Flexray – An Answer to the Challenges Faced by Spacecraft On-Board Communication Protocols

S. Gunes-Lasnet & G. Furano

I/O Systems at Saab Space (SE) and Austrian Aerospace (AAe) in the Past, Today and in the Near Future

J. Simonsson, O. Martinsson & P. Polacek

CAN Interface with Galvanic Isolation for High Radiation Environments

F. Tortosa López, G. Furano & P. Plancke

Session 1B: Middleware

Chair: G. Macchia

CCSDS SOIS Onboard Application Support Services

M. Ciccone & S.D. Fowell

Session 2A: Spacewire & Spacefiber

Chair: F. Hass

Simulation of a SpaceWire Network

Ph. Fourtier

SpaceWire Data Handling Demonstration System

S. Mills, S.M. Parkes & N. O’Gribin

SpaceFibre: A very High Speed Network for Space Flight Applications

S.M. Parkes, C. McClements, M. Dunstam, P. Mendham, M. Suess

Reducing Electromagnetic Emissions from SpaceWire

B.M. Cook & C.P.H. Walker

Session 2B: Fault Analysis & Dependability

Chair: G. Caspersen

Fault-Tolerant Design for Applications Exposed to Radiation

G. Schoof, R. Kraemer, U. Jagdhold & C. Wolf

Assessment of the Resilience Concept by Means of the HiPeRCAR Simulator

P.A. Marra, D. Akuatse, E. Crudo et al.

An Unusual Approach to Dependability for Space SW-Applications

S. Montenegro & R. Vitulli

Regenerative Chip-Multiprocessor for Space Applications

D. Lioupis, S. Kaxiras, V. Kalampalikis et al.

Session 3: Hardware & Software Design Towards Code

Chair: Ph. Lacan

An Open Source Rapid Computer Aided Control System Design Toolchain Using Scilab, Scicos and RTAI Linux

L. Bouchpan-Lerust-Juéry

The OMG Modelling Language (SYSML)

M. Hause

Session 4: Software Requirements & Design to Verification

Chair: B. Mullet

Applying the AADL to Space Software Standards

P. Dissaux

Model Transformation in Practice

R. Gerlich, D. Sigg & R. Gerlich

Evaluation of Auto-Test Generation Strategies and Platforms

R. Gerlich, R. Gerlich, T. Boll & J. Mayer

Session 5A: Cache & Stack Control

Chair: M. Richard-Foy

Considerations on the LEON Cache Effects on the Timing Analysis of On-Board Applications

G. Bernat, A. Colin, J. Esteves et al.

Session 5B: Software Development Process & Tools

Chair: H. Pasquier

System Data Bases In European Satellites Programs: Lessons Learned and Recommendations

X. Passot, D. Denuault, Ph. Guiral et al.

Innovative Technologies for the Galileo On-Board Software Verification and Validation

C. Cantenot

Session 6A: RTEMS

Chair: R. Ward

RTEMS Validation and Testing Study

U. Ivraeus, J. Alexandersson, S. Brady et al.

Runtime Performance Monitoring Tool for RTEMS System Software

B. Cho, S. Kim H. Park et al.

RTEMS CENTRE – Support and Maintenance CENTRE to RTEMS Operating System

H. Silva, A. Constantino, M. Mota et al.

Session 6B: Java

Chair: G. Garcia

A First Step Towards Using Real-Time Java for Spacecraft On-Board Software
M. Prochazka, R. Ward & A. Wellings

Session 7A: RTE Features and Services

Chair: G. Caspersen

GEFS: A File Management System for Real-Time Embedded Systems
F. Bossard & X. Fouchet

ARINC 653 Interface in RTEMS
J. Rufino, S. Filipe, M. Coutinho et al.

Session 7B: Communication Security

Chair: F. Hass

Security Concepts and Implementation on the ESA ISS Exploitation Program Ground Infrastructure for the ESA Human Space Projects
W. van Leeuwen

New Perspectives in Telecommand Security: The Application of EAX to TC Segments
S. Spinsante, F. Chiaraluce & E. Gambi

Secure Telemetry Demonstrator for Future Space Missions
P. Lombardi, P. Fabry, D. Akuatse & D. Carrard

Session 8A: Integrated On-Board Data & Power Management for Small s/c's

Chair: P. Plancke

The ADPMS Ready for Flight – An Advanced Data & Power Management System for Small Satellites & Missions
K. Puimège, S. Landstroem & D. Hardy

IPONS – A New Concept for Integrated Power and Data Distribution Onboard Satellites
O. Scholz, M. Gotsmann, K. Dostert & M. Gollor

Session 8B: Data Compression & Segmentation

Chair: G. Moury

Enhanced SAR Data Compressor for Sentinel-1

T. Algra & L. Bierens

Unsupervised Segmentation Algorithm Based on Markov Random Fields Applied to High Resolution Satellite Images

C. Saccomando, G. Ober, G. di Gioia et al.

Ground Demonstration of a Smart Telemetry

L. Quintin de Kercadio, Ph. Fourtier, G. Nicolas et al.

Session 9A: Processing Units for Small s/c's & Instruments

Chair: H. V. Heyer

Emulation Techniques for Solving Processor Obsolescence

J.L. Carayon

Virtex-II Pro Based Data Processing Unit for Small Spaceborne Camera Instruments

C. Dierker, B. Fiethe, H. Michalik et al.

Command and Data Management Unit (CDMU) for the ARGO Satellite

R. Grimoldi, V. LoRizzo, T. Lupi et al.

FPGA Based On-Board Computer System for the "Flying Laptop" Micro-Satellite

F. Huber, P. Behr, H.P. Röser & S. Pletner

Session 9B: Video Systems

Chair: K. Hjortnaes

GAIA Video Processing Embedded Algorithms: Prototyping and Validation Activities

S. Provost, M. Le Roy, B. Mamdy et al.

H²VMU for PRISMA Formation Flying Mission

M. Severi, G. Capuano, M. De Nino & F. Cacace

Session 10A: Radiation Protection

Chair: Ph. Lacan

Mars Express and Venus Express Data Retention In-Flight Performance
J. Lebrédonchel & F.-J. Rombeck

Session 10B: Simulators

Chair: M. Fauveau

SIMATB: Numerical Simulation in Support to Spacecraft AIT/AIV
F. Pasquier

Session 11A: Core On Board Systems

Chair: R. Gerlich

Avionic System for the CIRA USV Program
G. Capuano, P. Longobardi, F. Cacace et al.

Data Handling Unit 3 for Foton-M3 Mission
D. Titomanlio, G. Capuano, M. Severi & E. Della Sala

EXOMARS Descent Module Avionic Architecture
C. Cassi, M. Capuano & M. Montagna

Session 11B: Modelling & Simulation

Chair: A. Martelli

Model Scaling Approach for the GOCE End to End Simulator
G. Catastini, S. De Sanctis, M. Dumontel & M. Parisch

Application of Fuzzy-Logic Controller and Neural Networks Controller in Gas Turbine Speed Control and Overheating Control and Surge Control on Transient Performance
A.A. Torghabeh & A.M. Tousi

Session 12A: Payload Developments

Chair: Ph. Lacan

COROT Payload: Integration and Validation of the Payload Digital Process Unit and Associated Test Means

B. Pontet, Ph. Plasson & L. Gueguen

Session 12B: Test & Verification Platforms & Planning

Chair: P. Beerthuizen

Galileo Ground Mission Segment: Development and Use of an Engineering Tool Environment

M. Espinasse, A. Boyer, B. Forn & M. Gandara

AIV Platform for the Galileo Message Generation Facility

B.A. Oving, T. Zwartbol, S. Denham & M. Rennie

Session 13: Using COTS & Standardization

Chair: R. Ward

PA Approach for the Use of COTS in Space

F. Restagno & D. Foltran

Prototyping a Modular Architecture for On-Board Payload data Processing

C. Honvault & O. Notebaert

Session 14A: Guidance & Navigation

Chair: G. Montalto

The Value of Positioning Integrity for GNSS-Based Electronic Fee Collection Systems

P. Gomes & R. Barradas Pereira

PossybliCom, a Commercially Viable Personal Navigator for Blind People

M. Bavaro, D. Citterico, C. Dionisio & D. van Eijck

Softrec G3, Software Receiver for Galileo Bands

R. Marracci, L. Cucchi, M. Bavaro & C. Dionisio

EXOMARS Descent Module GNC Performance

S. Portigliotti, M. Capuano, M. Montagna et al.

Session 14B: User Desktops

Chair: Ph. Lacan

The EGOS User Desktop – A Harmonized Desktop Application for all ESA Ground Segment Systems
M. di Giulio

Unified Desktop for Monitoring & Control Applications – The Open Navigator Framework Applied for Control Centre and EGSE Applications
U. Brauer

Session 15A: Robotics & Autonomy

Chair: A. Martelli

Autonomous Robotic Scientist
M. Woods, R. Ward, E. Honary et al.

Use of RF Metrology Subsystem for Formation Flying Command & Control Purposes
R. Soumagne, O. Andreis, B. Dellandrea et al.

Session 15B: Ground Systems

Chair: H. Pasquier

A SWARM of Earth Explorer Family Mission Control Systems
C. Schurig & D. Guerrucci

Automation and Resource Management for Multi-Antenna Ground Stations
F.J. Barreiro, D. Firre & K.-J. Schultz

Multi-Channel Burst Mode Demodulator with Bandwidth Efficient Filtering
P. Delbeke, S. Krekels, W. Aerts et al.

Session 16A: Planning of Missions

Chair: F. Hass

Automated Planning of Science Planetary Missions with EKLOPS
M. Niézette, R. Steel, G. Hutchinson & E. Bornschlegl

Session 16B: Traffic M&C with s/c's

Chair: G. Macchia

Mission Simulation of a Shipping Traffic Monitoring Spacecraft: Rapid Development by Reusing a Generic Simulation Architecture

I. Sheret, K. Siliverdis, I. D'Souza & A. Macikunas

Panel Session: Harmonisation & Reuse with Plenum Discussion

Chair: A. Rossignol

The European Space Technology Harmonisation: The Vega On-Board Software Case Study

D. Portero, M. Fedi, E. Cañamares et al.

Reusable On-Board Basic Software for Satellite Computers

M. Schön & P. Sandin

List of Participants

Abstract Book
